

Celebrating the First Decade - The 19th Protein.DTU Workshop

Important information regarding poster abstracts Please use the abstract template shown below, including the provided subsections. Please note that **this is not a conventional abstract with the purpose of summarising the poster**. The aim of this abstract is to communicate (a) What you know and what you can do, in terms of expertise and techniques (which maybe others can make use of) and (b) What you don't know and what you would like to be able to do (maybe others have the knowledge and techniques that can help you).

The abstract **must** be uploaded in word-format.

You are welcome to bring a poster, which has been made for a different occasion, even if the content is not completely reflected by the abstract.
